Reference: OLP Construction

Subject: Reference Letter

To Whom It May Concern:

It is my understanding that you are considering OLP Construction as a contractor to perform work on one of your projects. I would highly recommend their company to you, as my recent experiences with them have been second to none. Their performance from all aspects has been outstanding including quality of work, coordination with construction schedule, timeliness and most of all a professional manner and attitude while conducting their work.

We recently employed OLP Construction on the Bridgewater Elementary school project which is a new prototype elementary school for Orange County Public Schools. This particular project was delayed in the beginning of the project due to some unforeseen site conditions. As a result, Clancy & Theys was requested to accelerate the project schedule in order to regain for the lost time. OLP Construction was immediately on board with the proposed acceleration, and was very instrumental in assisting Clancy & Theys in the development of an alternate concrete casting plan that helped us to achieve making up for the lost time. From the onset of this process, OLP was very professional, extremely proactive in the planning stages, and ultimately delivered within the accelerated time frames. This type of professionalism and cooperation is rare in our industry and each of our projects would be more successful if each trade employed their strategy.

In summary, I would most definitely recommend OLP Construction for your project and have confidence that they can deliver. If you would like to discuss any of this in more detail, please feel free to contact me at (407)578-1449 or by e-mail at jeffm@ctorlando.com.

Sincerely,

CLANCY & THEYS CONSTRUCTION COMPANY

Jeff Mock
Senior Project Manager
